

Mipa Edelstahl Spray

Product Information

GB - 2/1116

Art.Nr.: 213550000

Mipa Edelstahl Spray is a top quality stainless steel coating with high corrosion resistance for a variety of application fields including the steel construction sector, mechanical engineering, heating and ventilation sector, etc. This product provides excellent adhesion on all metal, wood, plastic, glass and cardboard. Due to the special chrome-nickel-steel pigmentation, Mipa Edelstahl Spray prevents contact corrosion and is once thoroughly cured resistant against many acids and alkalis.

Substrate:

Primerd Ferrous and non ferrous metals, wood, plastics, glas, cardboard

Pretreatment / Cleansing:

Pre-cleansing with Mipa Silikonentferner

Characteristics:

Heat resistant up to 300 °C

High corrosion resistance

Alloy analysis: 18% Chrome, 8% Nickel, 2% Manganese

Mechanical resistant

Extremely weathering resistant

Chemically stable

**Colour / Grade of
Gloss:**

Stainless-Steel

Preperation:

Shake can vigorously until the mixing balls move freely!

Application:

Spray to test - Spraying distance approx. 20 - 30 cm
1- 2 coats.

Flash-off:

1 - 2 min. between each coating

After use:

Turn can upside down and spray until the valve is clean, this prevents the valve from clogging up.

Drying Times:

Drying:

Dust dry:

5 min.

Set to touch:

10 h

Full hardness:

24 h

**Processing
Conditions:**

From +10 °C and up to 80% relative air humidity

Storage:

In tightly closed original containers at least 2 years shelf life

**VOC-
Regulation:**

EC limiting value for the product (cat. B/e): 840 g/l

This product contains max. 650 g/l

**safety-
